SUMMARY

Hands-on experience in full-stack development, MERN stack, and IoT, with active participation in hackathons. Skilled in rapid prototyping, UI/UX design, and collaborative problem-solving. Exploring blockchain technologies and security concepts including ethical hacking. Submitted an iOS app to the Swift Student Challenge. Top 6 finalist in MED-AI-THON with a strong record of internships and projects.

WORK EXPERIENCE

Student Intern – Cybersecurity & Ethical Hacking

June 2025 – July 2025

Tamizhan Skills (RISE Internship Program) | Remote, India

- Underwent practical training in cybersecurity fundamentals and ethical hacking concepts
- Learned basics of network security, cyber threats, and security best practices
- Participated in structured learning activities focused on skill development and communication

Student Intern – MERN Stack Development

June 2025 – July 2025

InternPro | Remote, Tamil Nadu, India

- Gained hands-on exposure to MERN stack development concepts
- Assisted in building and understanding frontend components and backend integration
- Worked with MongoDB, Express.js, React, and Node.js at a beginner level

EICL, Trivandrum, Kerala

May 2026 - Present

- Working as an intern
- For industrial exposure

AI/ML Intern – Infosys Springboard 7.0

June 2026 - Present

Remote, India

- Worked on AI and machine learning concepts, model development, data preprocessing, and algorithm optimization.
-

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Sep 2024 - Oct 2028

SRM IST, TRICHY

Research & Innovation Experience

- Member, Research & Innovation Team – ACM Student Chapter
- Worked on problem analysis, solution ideation, and technical documentation for student-led research projects

Membership Chair

- My role is to make others to join in this ACM Student Chapter

Chairperson in iMac club

- To make my responsibility in to real work

Focus: Fullstack Development - MERN Stack

CGPA: 9.4

ADDITIONAL INFORMATION

- **Technical Skills:** VS Code, CAD, Figma, Python, QGIS, AI Basics, C++, Swift, PowerBI
 - **Video Editing & Content Creation:** Inshot, DaVinci
 - **Certifications:** AWS Certification, Snowflake Certification
 - **Achievements:** Top 6 in MED-AI-THON with a Cash Prize, Finalist in Meta Hackathon, Shortlisted in Infosys springboard 7.0 Virtual internship
-
